COSTA INFORMATION ON CAFFEINE CHRISTMAS 2022

INFORMATION FOR CUSTOMERS

- Caffeine naturally occurs in coffee beans and as with any natural products, levels can vary depending on origin, variety, climactic and growing conditions
- The caffeine content in the finished coffee varies widely depending on the type of coffee bean in the blend and the method of preparation used
- Our Signature Blend is a blend of several origins. The level of caffeine variation driven by beans alone would be more significant than in a single origin coffee
- In addition, grind size, water temperature, length of extraction will all have an impact on caffeine level in the final drink. The longer the extraction, the more caffeine is extracted from the beans
- Character Roast, being 100% Arabica, has approximately 25% less caffeine than Signature Blend Mocha Italia
